DESCRIPTION: Premium flat metal cutting discs that provide an excellent cost / performance ratio across a broad range of ferrous steel applications.

MACHINE SUITABILITY: Electric and cordless angle grinders, hand held cut off saws and chop saws.

STANDARDS:

- EN12413: European standard that regulated the safety requirements for bonded abrasive products.

USER TIPS:

- Make certain the blade is suitable for the material before cutting
- Guide the blade straight into the material
- Do not use unnecessary pressure, the weight of the machine is sufficient
- Carry out a slight forwards and backwards pendulum movement when cutting
- Do not use expired discs or expose them to water or direct sunlight
- Do not use a cutting disc to grind material.
