

P5-LMA

SPEC SHEET

DESCRIPTION: The P5-LMA is a premium laser welded concrete blade that offers great performance on asphalt and abrasive materials. Deep draft segments protect the steel core when cutting deeper into asphalt and abrasive materials.

FEATURES: High quality diamonds, advanced metal bond, laser welded and deep draft segments for undercut protection.

MACHINE SUITABILITY: Angle grinders, wall chasers, hand held saws, table saws and floor saws.

STANDARDS:

- EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.
- The Organization for the Safety of Abrasives (oSa): Members of oSa have to imply strict manufacturing, quality and safety procedures in accordance with EN13236.

USER TIPS:

- Make certain the blade is suitable for the material before cutting.
- Guide the blade straight into the material.
- Do not use unnecessary pressure, the weight of the machine is sufficient.
- Carry out a slight forwards and backwards pendulum movement when cutting
- If cutting speed reduces you can re-sharpen (dress) diamond segments by making several cuts into a highly abrasive material such as a 3-Newton concrete or cinder (breeze) block.

PACKAGING DETAILS:

Full colour corrugated cardboard box.
