

STC-15

SPEC SHEET

DESCRIPTION: The eye catching 15mm high turbo segments offer fast cutting, coupled with long blade life. The STC-15 can be used to cut anything from standard facing bricks to cast concrete making it ideal for construction sites of any size.

FEATURES:

- 15mm High segments
- Cooling holes
- Fast cutting & long life.

MACHINE SUITABILITY: Angle grinders, wall chasers and hand held saws.

STANDARDS:

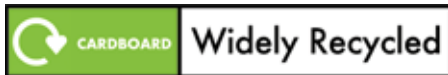

- EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.

USER TIPS:

- Make certain the blade is suitable for the material before cutting.
- Do not use unnecessary pressure, the weight of the machine is sufficient.
- Carry out a slight forwards and backwards pendulum movement when cutting
- If cutting speed reduces you can re-sharpen (dress) diamond segments by making several cuts into a highly abrasive material such as a 3-Newton concrete or cinder (breeze) block.

PACKAGING DETAILS:

Full colour corrugated cardboard box.

PRODUCT DETAILS:

Part No.	Dimensions
DP14498	115 x 2.0 x 15 x 22.2mm (4 1/2")
DP14499	125 x 2.2 x 15 x 22.2mm (5")
DP14500	230 x 2.6 x 15 x 22.2mm (9")
DP14503	300 x 2.8 x 15 x 20mm (12")
