

STM-10

SPEC SHEET

DESCRIPTION: The 6mm wide, 10mm high, continuous rim turbo mortar raking blade offers good blade life and a fast speed of cut, providing a good price to performance ratio.

FEATURES:

- 10mm High turbo rim
- Value for money.

MACHINE SUITABILITY: Electric and cordless angle grinders.

STANDARDS:

- EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.

USER TIPS:

- Make certain the blade is suitable for the material before cutting
- Guide the blade straight into the material
- Mortar raking creates a large amount of airborne dust. It is strongly advised that a machine with a fitted dust extraction guard is used, and coupled to a dust extraction unit, with a minimum specification of 'M-class'. This is in addition to wearing the full and appropriate PPE.
